

Dear Patients,

I enthusiastically welcome you to the Activate Health & Wellness Center. My name is Dr. Michelle Migliore, and I will be the primary care physician at your new clinic. I am Board Certified in Family Medicine. My experience includes providing care for children, adults and geriatrics, with a focus on acute, chronic and preventive care.

I left my most recent position to join your new clinic team because I believe that preventive care is a key factor in maintaining good health throughout a lifetime. I am excited that this team-based approach to your health will allow for thorough integration of communication and education. While we will strive to prevent onset of new diseases through proven, high-quality care, we also will focus on prevention of complications from already existing conditions.

The new Activate Health & Wellness Center is generously paid for by your employer, who has removed the usual financial limitations in providing quality care. For example, there are no co-pays associated with an office visit, generic drugs are available at no cost, and lab services are also provided at no cost to you and your family. In addition, longer appointment times will optimize the team-based educational experience and provide long-term benefits for overall health.

On a personal note, I strongly feel that this opportunity will provide unmatched quality and access to care that will benefit the health of you and your family. I am excited to meet all of you and start this exciting journey with you.

Sincerely,

A handwritten signature in black ink that reads "Michelle Migliore" in a cursive script.

Dr. Michelle Migliore
